revolutionises stone processing

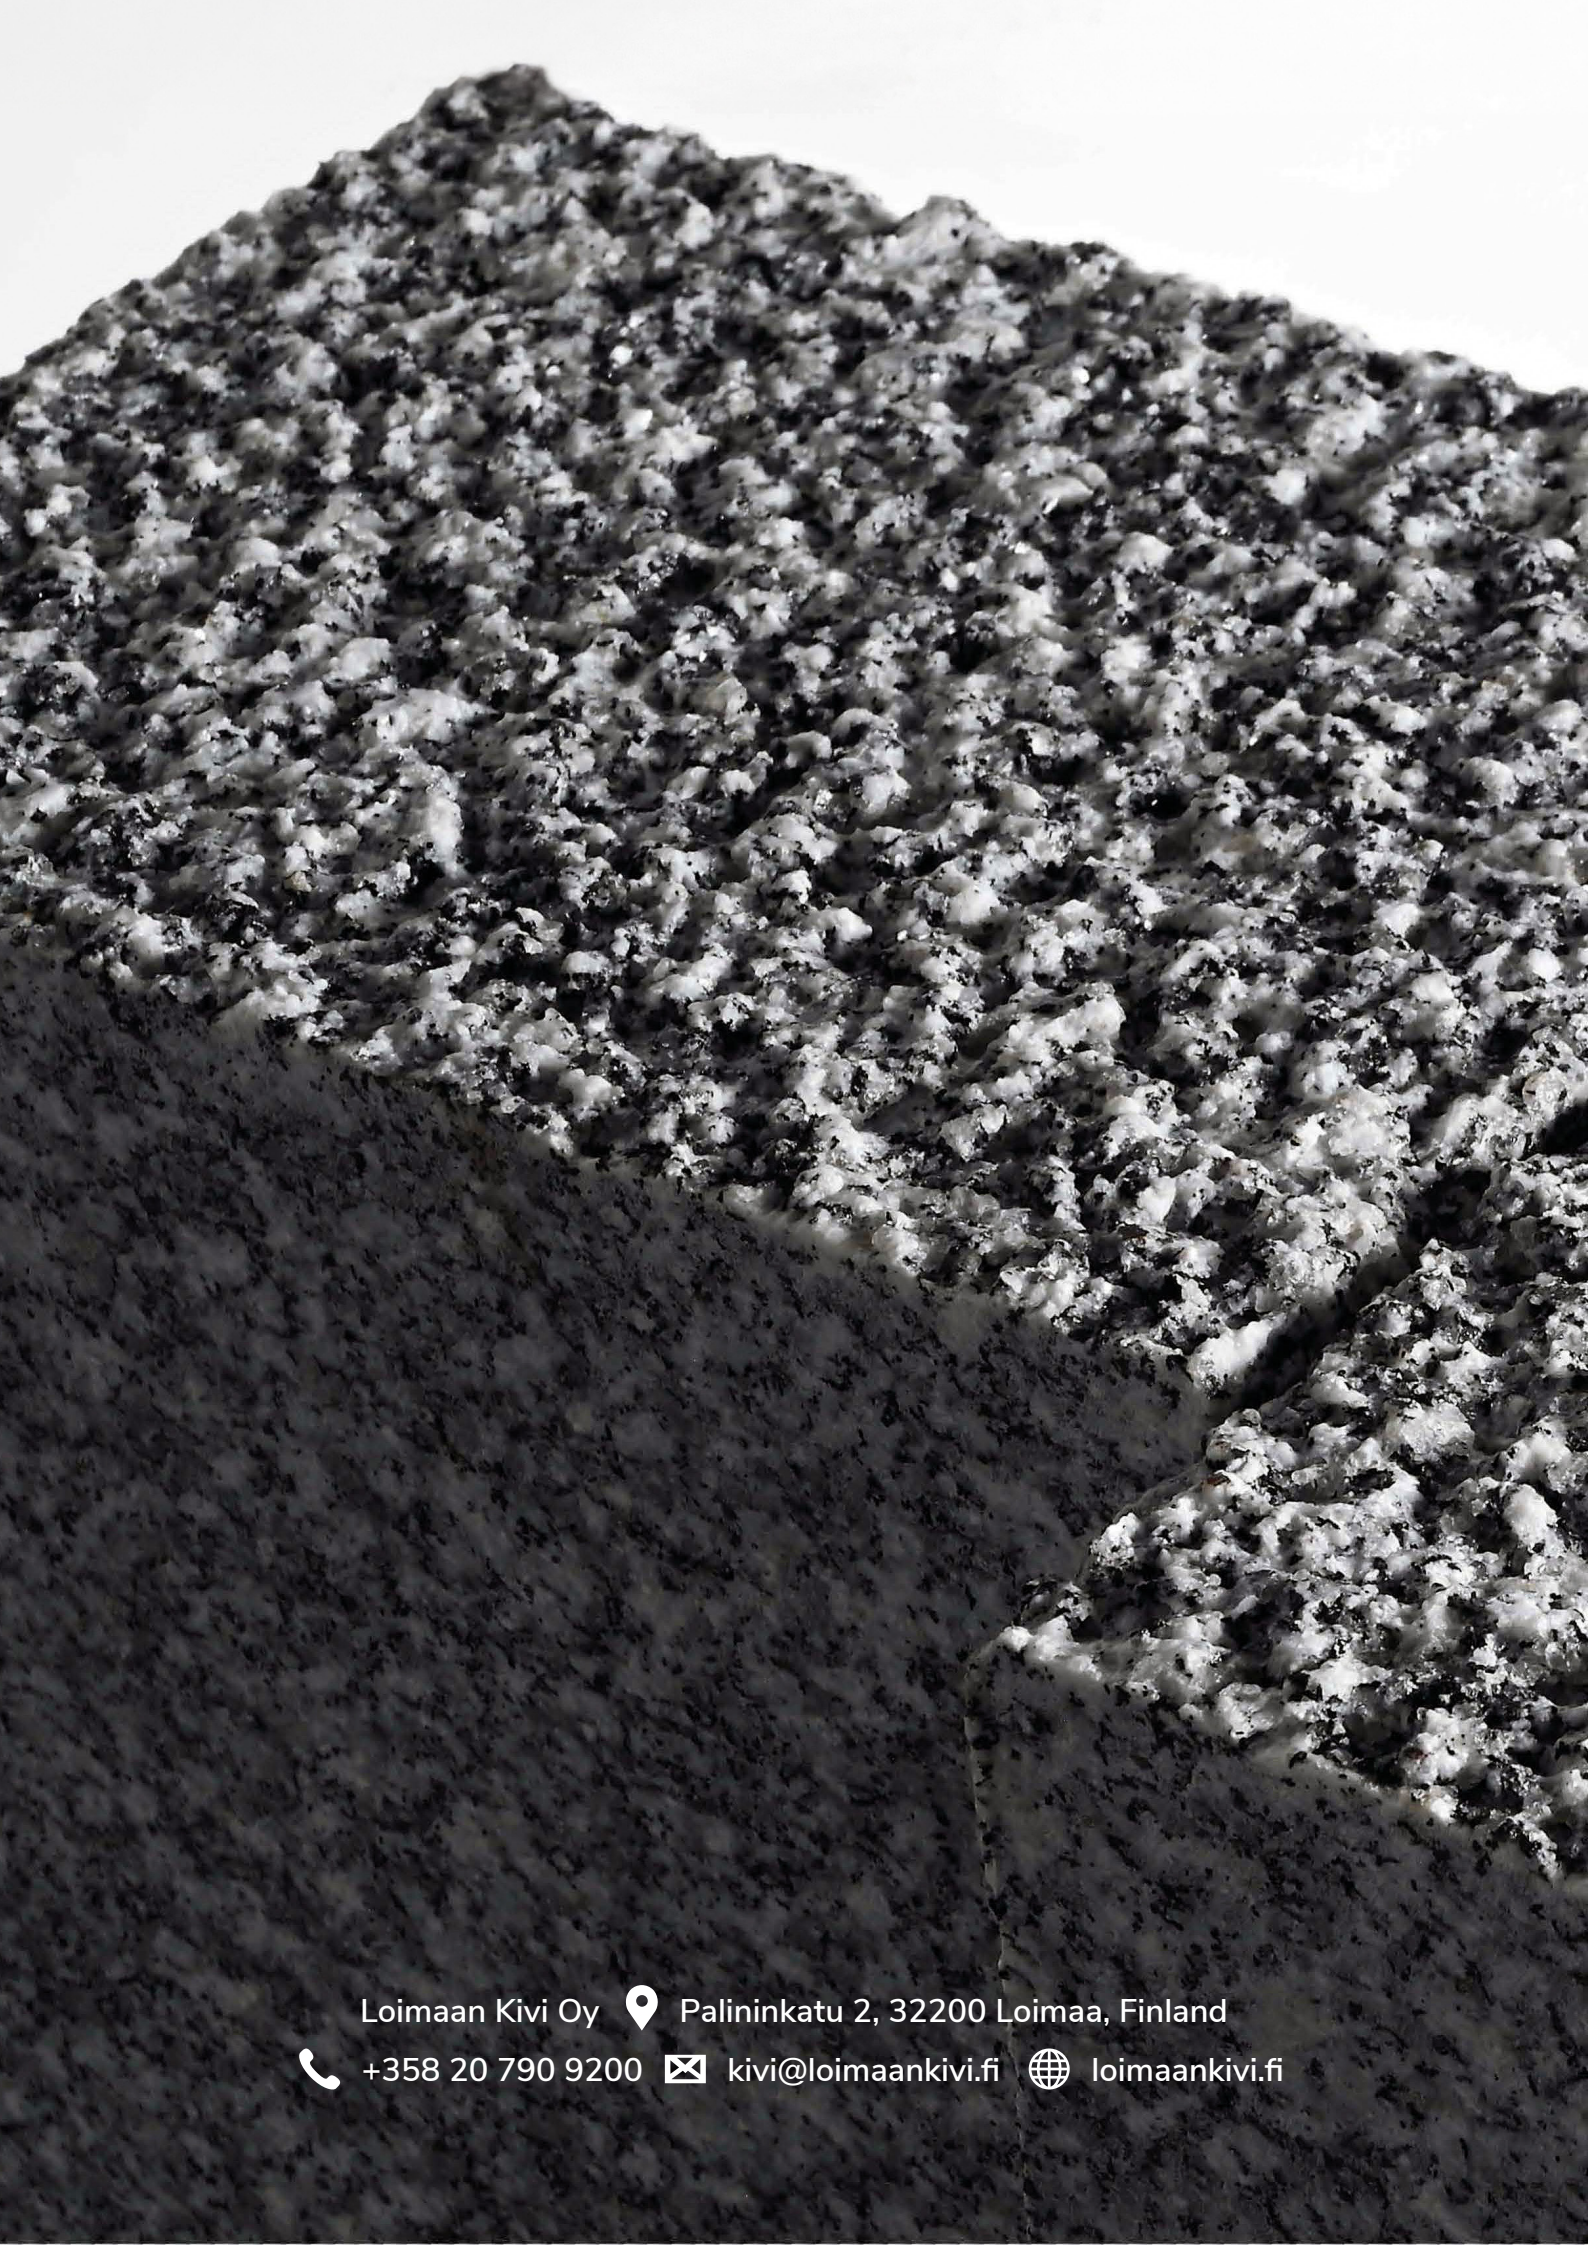

**retains the stone's natural  
appearance and colour**

**we do in seconds  
what takes centuries in nature**

- suitable for all types of stone
- rough surface without stressing the stone
- enables the processing of other thin products
- enables a similar appearance across several product groups
  - slabs, kerb stones, facade stones
- eco-friendly
  - low energy consumption
  - no worn tools
  - low wastage rate
  - excellent decorative stones are created as a side product
- automatic surface treatment line
  - cost-efficient
  - fast
  - dust-free
  - saves heavy manual labour
